

EGL SERIES NOW WITH **2X** CYCLE LIFE

GC2 GROUP SIZE	DEEP CYCLE CAPACITY 20 HOUR RATE	RESERVE CAPACITY (Minutes) @25 Amps	RESERVE CAPACITY (Minutes) @75 Amps
GC2	200AH	375	100

Introducing the **LONGEST LASTING** Traditional Golf Battery Ever Made!

The safest and most environmentally friendly deep cycle battery on the planet, is now the longest running. Fullriver has reimagined the possibilities of traditional batteries by developing a deep cycle battery that will literally “out-drive” the competition, twice over!

EGL200-6	
Group Size:	GC2
Deep Cycle Capacity:	200 Ah
Reserve Capacity:	375 min @ 25A 100 min @ 75A

EGL220-6	
Group Size:	GC2/GC2H
Deep Cycle Capacity:	220 Ah
Reserve Capacity:	470 min @ 25A 118 min @ 75A

EGL170-8	
Group Size:	GC8
Deep Cycle Capacity:	170 Ah
Reserve Capacity:	330 min @ 25A 120 min @ 56A

EGL100-12	
Group Size:	31
Deep Cycle Capacity:	100 Ah
Reserve Capacity:	175 min @ 25A 43 min @ 75A

Made from 99% Recyclable Products

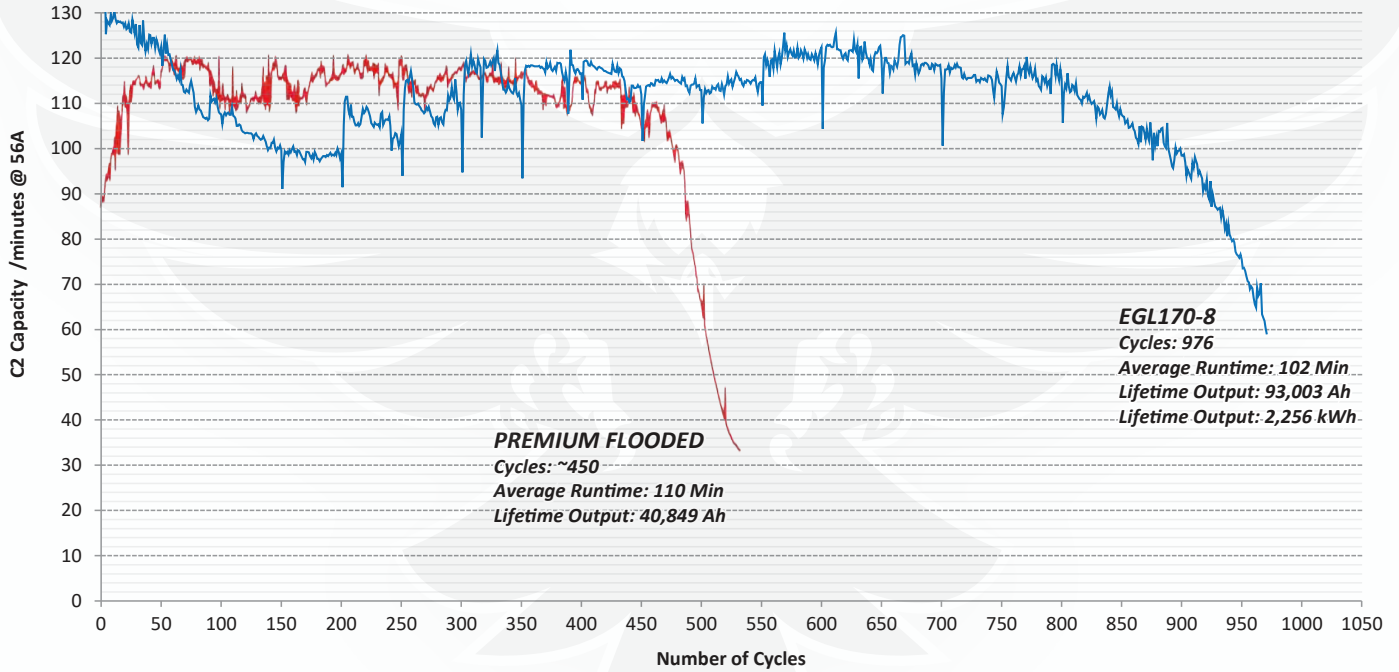

Groundbreaking Cyclic Ability
Rated for 1,250 cycles
@ 80% DOD

Completely Safe
Non-Spillable
Maintenance-Free

Requires no BMS or Additional Safety Equipment

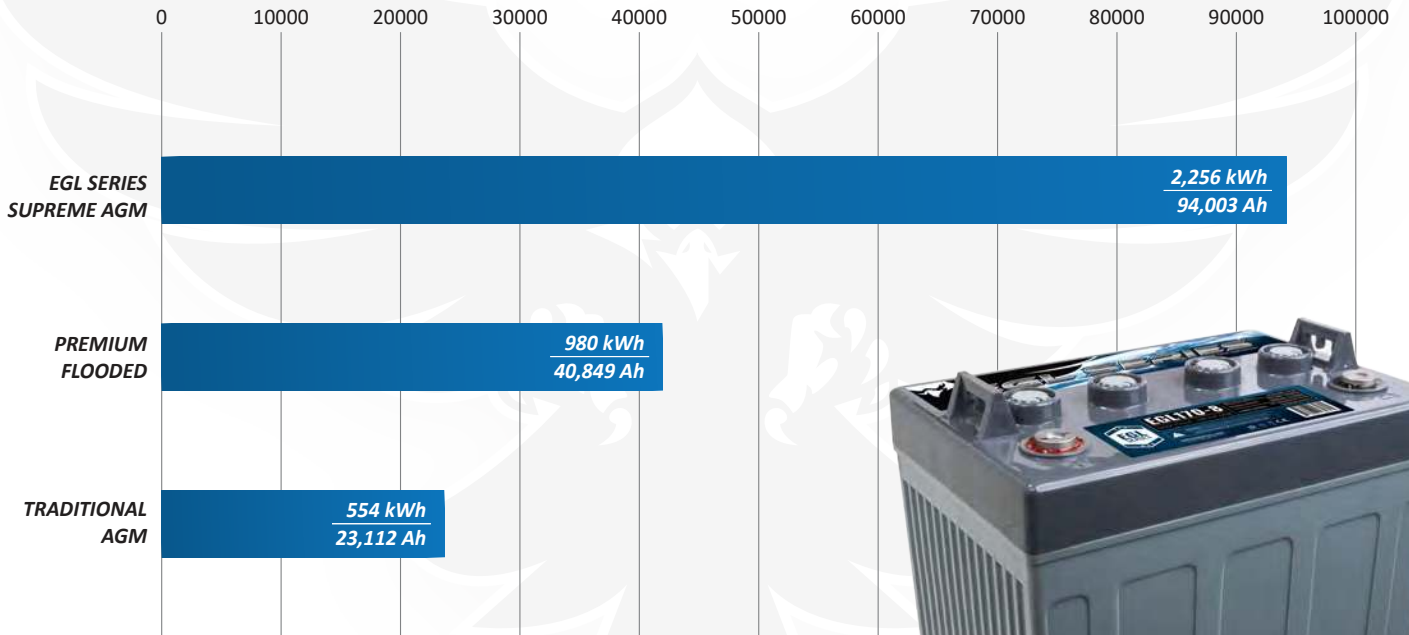

8V (GC8) Cycle Test

Battery Model: **EGL170-8**

Test Standard: **BCIS-06 BCI SPECIFICATIONS FOR CONSTANT CURRENT CYCLE LIFE TESTING OF DEEP CYCLE BATTERIES**

Lifetime Output Comparison - 8V Battery
