

# BUILT WITH THE HIGHEST STANDARDS

- Pure lead construction
- European made AGM separators
- Utilizing taller plates for big cranking
- Strong, highly conductive terminals reduce resistance and heat
- Cells packed under compression to stand strong against vibration
- Designed receptivity for today's vehicle charging systems
- Ultra-low resistance AGM cells to reduce self-discharge
- Zero-Spill format
- Factory Activated and ready to ride
- Sized for ideal fitment with OEM battery dimensions
