Fullriver Battery manufactures the highest quality VRLA technology batteries on the market today.

Unlike many battery producers, the entire manufacturing process is done entirely in house. The grid casting, plate pasting, and final assembly are all done at the award-winning Fullriver manufacturing facility, ensuring total quality control. Fullriver produces the widest range of battery sizes in various voltages (2V, 6V, 8V, 12V), in BCI, DIN and other International sizes, including our popular DC Series, Full Throttle Series, and Full Force Series.

Every Fullriver battery series is designed to be charged and discharged hundreds of times.

Completely sealed and maintenance-free AGM batteries, you can simply "Set and Forget". Backed by a network of trusted distributors across the globe, you'll always be able to find the right battery to fit your needs. From a true deep cycle battery, to a superior starting and performance battery, Fullriver Battery can meet almost any need.

We have a proven track record of providing a premium quality battery and excellent customer care since 1995.

Fullriver Battery, "The One that Works".

Use the "Battery Finder" feature on our website to find the perfect power solution for your vehicle.

fullthrottlebattery.com

LONG LIFESPAN

Full Throttle AGM batteries last longer than their wet cell counterparts due to 99.994% pure virgin lead, high compression cells, and no maintenance needed.

FAST CHARGING

Full Throttle AGM incorporates very low internal resistance, allowing for charge rates up to 35% of total Ah for faster charging.

BUILT STRONGER

Full Throttle AGM is built with TPPL (Thin Plate Pure Lead) technology and Over-The-Partition welds which greatly increase resistance to vibration and shock! The ABS case and optional metal jackets provide high heat resistance for the most abusive environments.

OUTSTANDING WARRANTY

Full Throttle AGM batteries are backed with up to a 4-year Full Replacement Warranty on automotive group sizes for more time on the road, off the road, in the lanes, on the water, or anywhere.

FLEXIBLE INSTALLATION

AGM batteries can be mounted vertically or horizontally, allowing them to fit places traditional wet cell batteries cannot! Fullriver AGM incorporates recombinant technology for long life, and no off-gassing like traditional wet cell batteries. Install them inside without the worry of dangerous explosive and corrosive gases. No more corroded terminals or cables.
